Best free video editor review

This guide introduces 5 best free video editors to edit videos free. Free download links of the best video editors are given as well.

Sometimes you may need to create or edit a video yourself, for a far-away friend or important event. Anyway, it is not advisable to pay for a professional video editor program in these cases. So are there any freeware to edit videos free? This guide introduces 5 best free video editor tools, enabling you to trip video size, add extra captions/background music/3D effects, and do other editing operations.

5 best free video editors

1. Windows Movie Maker

Windows Movie Maker is known as one of the best free video editors in the video editing field. As a product of Microsoft, Windows Movie Maker is also identified as the top free windows video editor, which comes with Windows Vista by default (Movie Maker 6.0) and can be installed on Windows 7, Windows 8 as well as Windows Server. By using Windows Movie Maker, users can create and edit videos free. In addition, users are able to upload created videos to YouTube, Vimeo, Facebook, Flickr and other video-sharing sites. Windows Movie Maker enables users to create videos based on pictures, add music from local drive and save in various output formats (the default output format is H.264). Windows 8 users will even receive exclusive hardware accelerated video stabilization provided by Windows Movie Maker.

4. Avidemux

Avidemux is a good & free video editor suitable for those who are looking for an easy-to-use video editor. Unlike the three freeware mentioned above, Avidemux can be installed on Windows, Linux, BSD, and Mac OS X (under the GNU GPL License) instead of pure PC OS.

Similarly, there are a lot of video formats supported by Avidemux: AVI, ASF, WMV, WMA, FLV, MPEG, MPG, MP4, TS, NUV, OGM, MOV, 3GP, etc. Primary features offered by Avidemux: video cutting, filtering (visual effects), audio inserting/extracting, format converting and encoding.
