- 2. [Convert mp4 to mp3 online.](#)
-

It couldn't be nicer if we can convert iTunes video freely, then we would be able to watch them on any device we like. And guess what, it is totally feasible.

How to convert mp4 to mp3 with freeware

There are many third-party programs that you can use to convert mp4 to mp4.

Here I recommend you use Freemake Video Converter. It can convert mp4 to mp3 for free, and it will help you to do it quickly and easily.

Step1: Download [Freemake MP4 to MP3 Converter](#)

Step2: Add MP4 video.

Run the software, and click the “+video” button to add mp4 video files. Of course you can also drag your videos you want to convert.

Step3: Set output format as mp3

Click “to mp3”. Choose a ready preset or customize the preset you want.

As the image shows, we can also convert mp4 to avi, convert mp4 to wmv, mpeg, and so on.

Tips: If you want to transfer mp3 to iPad or iPhone, select “Export to iTunes” please.

Step4: convert mp4 to mp3

Just click “Convert” button, all your selected mp4 files will be converted to mp3 format. Now all the left job for you is just transfer your converted files to your player with USB cable.

Certainly there are many other video converters. Such as mp4 to mp3 converter, Handbrake, DVDvideo software, etc. And if you want to convert mp4 to mp3 on mac, you can use iTunes directly.

How to convert mp4 to mp3 online

If you don't want to download any software, you can refer this part. Here I recommend ZAMZAR. It's online and free.

Step1: Go to www.zamzar.com.

Step2: Do as what the site tells you. Just add your mp4 video files, and then choose mp3 as the output format. The difference between mp4 to mp3 converter in part 1 is that before the mp4 to mp3 conversion you should enter your e-mail address to receive your converted audio files.

The screenshot shows the Zamzar website interface with four steps:

- Step 1:** Select files or [URL](#) to convert (up to 100MB - [want more ?](#)). A red circle highlights the "Choose Files..." button, and a red arrow points to the "or drag and drop files" text below it.
- Step 2:** Choose the format to convert to: A dropdown menu shows "mp3". A red arrow points to the dropdown.
- Step 3:** Enter your email address to receive converted files: A text input field is shown. A red arrow points to the input field.
- Step 4:** Convert (by clicking you agree to our [Terms](#)). A red circle highlights the "Convert" button.

After you click the convert button, you will get your converted mp3 audio files as soon as possible.

Till this step nearly all the job has been finished. Now you can enjoy these songs or background music you like.
