3. Lightworks

Price: Free

Lightworks is a far cry from Sony Vegas, which is less professional or complete than Sony Vegas but comes free of charge, providing a dedicated and rapid way to edit (trim) video together with an unapproachable auto sync feature. Opposite to paid video editor programs (Sony Vegas, Adobe After Effects, Adobe Premiere Pro, etc.), Lightworks comes with an inscrutable interface and that users typically spend a long time to get used to it.
